

>> FOR THE FANTASY DESIGNER

## CIRCU

Much more than a furniture brand, Circu teams up with parents to help them truly appreciate their inner child and their children's visions and perspectives. Being in a Circu-inspired room is like living in a dream world somewhere between fantasy and magic. There is a fanciful room for every child—or inner child—from a space-themed room filled with stars and your very own spaceship to a mermaid-inspired room with a clamshell bed. ## BESSA

If you're looking for a one-of-a-kind statement piece for your home, then you're in luck. In celebration of their anniversary, Bessa created an exclusive limited-edition piece inspired by Antoni Gaudí's designs. The table is dominated by flowing organic lines and is made of 100 kilograms of solid brass, which reminds one of the architectural façade of the Casa Batlló. Inspired by the colors and geometric shapes of the tiles in Casa Batlló's roof, the Gaudí table is covered with 300 triangles. Each one is manually foliated with silver and gold leaf as well as artistically painted. [bessadesign.com](http://bessadesign.com)

## BON PARFUMEUR

We don't wear the same outfit every day, but instead we mix and match to suit every experience. So why not the same with fragrance? A fragrance playlist for every mood, every experience, every emotion, which brings together all of the olfactory families in a comprehensive collection. Bon Parfumeur incorporates the traditional values of a French Perfumery but interweaves a cool, contemporary and effortless luxury; an "easy luxury."

Their perfumes are designed to be layered and collected. The essences of the product mix on the skin and reveal themselves. By choosing the emotion and then superimposing them, each individual can express himself or herself through mixing and matching. [bonparfumeur.com/en/](http://bonparfumeur.com/en/)

>> FOR THE LUXURY TRAVELER

## HOTEL VALENCIA RIVERWALK

The award-winning Hotel Valencia Riverwalk has undergone a complete transformation with the first major renovation in the hotel's 14-year history. Internationally acclaimed architect and designer Lauren Rottet transformed the boutique property into an alluring blend of Spanish Colonial and modern Mediterranean styles. The hotel's enticing new restaurant, Dorrego, draws its inspiration from the rich culinary heritage of Argentina. Hotel Valencia Riverwalk is resetting the bar in San Antonio for sophisticated luxury. [hotelvalencia-riverwalk.com](http://hotelvalencia-riverwalk.com)

## AZKARRA

The last several years have seen a rise in interest—and sales—in luxury three-wheelers. One of the most recent launches is by Atelier Girfalco Limitée with their Azkarra concept. Looking like something straight out of a big-budget movie, it offers a sporty driving experience and represents the perfect combination between classicism and modernity. The Girfalco team gave great attention to the comfort and ergonomics of the cockpit.

The driving experience causes your heart to pound faster as you try to control it with your breathing. You feel one with the road where all of your commands are obeyed instantaneously and surgically. Truly a magical moment that you might expect on the big screen. [girfalco.com/azkarra-s.html](http://girfalco.com/azkarra-s.html)

## PROJECT CULLINAN

Project Cullinan is the term for the British manufacturer's developmental program to produce an "all-terrain, high-sided vehicle." This latest development vehicle will travel to numerous locations around the world in a challenging testing program to ensure that the end product will be "Effortless...Everywhere." Project Cullinan was expected to enter the Arctic Circle to undergo cold-weather durability and traction testing earlier this year. Later in 2017, it will travel to the Middle East to endure the highest of temperatures and challenging desert conditions.

"This is an incredibly exciting moment in the development of Project Cullinan both for Rolls-Royce and for the patrons of luxury that follow us around the world," says Torsten Müller-Ötvös, chief executive officer of Rolls-Royce Motor Cars. "Bringing together the new four-wheel drive system and the new 'architecture of luxury' for the first time sets us on the road to creating a truly authentic Rolls-Royce, which like its forebears will reset the standard by which all other luxury goods are judged." ## DALLAS BLOOMS: FLOWER POWER

Touted as the largest floral festival in the Southwest, this year's Dallas Blooms theme is "Peace, Love and Flower Power," and runs through April 9. The festival features tulips, daffodils, pansies, violas, poppies and thousands of other spring-blooming plants.

Each weekend, Dallas Blooms will highlight a different 1960s theme and incorporate headlines, music, TV, fads and fashion from the swinging '60s. Some of the themes include Vibrations of a Nation "Peace Love Freedom Fest," a music festival throughout the gardens; Ed Sullivan Show-Celebrity Weekend, starring Arboretum volunteers reenacting celebrity appearances; and Fashion Forward Weekend, where guests can create flower wreaths, dress paper dolls and get henna tattoos.
